Naturally it was the center of interest at the opening this morning, and when it advanced a point at the opening it was the signal for the shorts to cover. The movement extended to the railroad shares and its stimulating effect was

felt all along the line. The leaders in the market opened stout fractions higher and sold up during the first hour of business. The market was active, verging upon feverishness. Atchinson opened % of a point up and sold a quarter higher. Great Northern preferred added an eighth on the opening and sold to 135% within a few minutes. Union Pacific was the most active stock in the early trading, opening % higher, at 189%, and adding a point in the early sales. Some of this was lost, and the stock fluctuated considerably, but generally held well. Southern Pacific added a point from last night's close. Reading was very active, but in a narrower range of fluctuations.

The industrials shared the advance, Cotton Oil, Copper, and Sugar all being strong. Steel was less active than might have been expected, but added half a point to the opening, which was at 7912.

The rise in the market is due to fa-

vorable weather reports, short covering, and general strength in the London market. It is, moreover, following the natural order of things for a rise, and while it may be limited to a point or and steady.

The market became less active about noon, but held the morning's advance in prices, adding a little here and there. Sales to noon were well above 200,000, showing a great departure from past days. Stock Sells on Advancing Bids From 89 1-4 to 90, With 400 Shares Taken.

Washington Railway preferred, like a comet, flashed into the local speculative firmament today, and made some impression among the bright particular lights in that sky. It was after call when the heavenly messenger arrived, and it continued to flash brighter and brighter until the close

of the star gazing. More than 400 shares of this stock which has been quiescent of late, came upon the market, and was sold from 891/4 to 90. The sales were in from 89½ to 90. The sales were in quotation lots, broken lots and any old lots that could be had, and the takers were there all the while with the price when the holders would let go. The trading was fast, and the stock came out in big wads as the price advanced. The reason for the activity and advance of the preferred are the same as those which gave such a boom to the common stock some days ago.

On call some stiff trading was recorded in Potomac Consolidated bonds at

ed in Potomac Consolidated bonds, at 1024. Steamboat 5's and Columbia Rail-road 6's also entered into the trading, the former at 1044, and the latter at 103.

A small Washington Gas bond sold at 10%.

A small Washington Gas bond sold at 10%.

Other trading on the local exchange was small and scattered between Capital Traction, Mergenthaler, Lanston, and Railway common. The stocks all went at current prices.

### Secret Veils Sale Of Dwelling Row

Details of the sale today for \$250,000 of a row of dwellings, known as 1310 to 1320 G street northwest, in the heart of the business district, are being guarded by the strictest secrecy, and the transaction is causing much speculation among local brokers.

One of the most significant of the terms of the order of sale, passed by Justice Anderson July 6, is a clause providing that unless improvements to the minimum of \$20,000 be put on the property, the purchase price may be raised to \$270,000. The transfer of the property, which is

part of the old Thompson estate, was made through the F. H. Smith Company, and the ostensible purchaser is Edward G. Perry, who is connected with that corporation. What improvements will be made to the property is not known, and Lee D. Latimer, of the realty concern, who engineered the sale, this morning refused to discuss the matter.

It is understood the purchaser, whose name is withheld, intends using the property for the erection of several business properties, and that he will not improve it by one large building.

The order of sale was passed by the District Supreme Court a few days ago in connection with the settlement of the estate of the late Mary Anne V. Thomp-son, and made the American Security and Trust Company trustee to convey the real estate to Edward G. Perry. By the terms of the sale it is understood \$30,000 cash was paid, and a trust of \$200,000 was placed upon the property. The land at present is improved by The land at present is improved by a row of three-story brick residences, but it is said that these will be torn down to make way for more modern improvements.

When the trend of the business dis-

trict took in G street a few years ago, this piece of property, known as lots 20 and 21, in square 253, was considered a valuable tract for business purposes. As soon as the settlement of the Thompson estate was undertaken, and this tract offered for sale, there were sevfraid deals on, it is said, and the latest failed a few months ago, because no order of sale was passed by the court.

tract offered for sale, there were several deals on, it is said, and the latest falled a few months ago, because no order of sale was passed by the court. The property in question contains approximately 13,000 square feet, and the price of property indicated by this sale is in the neighborhood of \$20 a foot; although other property nearby has sold recently for as high as \$24 and \$25 a foot. The present deal, which has resulted in today's sale, has been in prospect, it is said for some time, but the affair has proceeded without jubilicity so that even the heirs of the Thompson estate do not know the real purchaser of the tract.
